

### **Learning & Memory 11:** Issue 5 (2004)

The September Special Issue on Extinction contained the following errors:

Michael Davis, Professor of Psychiatry at Emory University, should have been acknowledged as the Guest Editor in the print edition of the Special Issue. Dr. Davis's expertise and assistance were invaluable to the success of the issue.

The article entitled "An *egr-1* (*zif268*) Antisense Oligodeoxynucleotide Infused Into the Amygdala Disrupts Fear Conditioning" by Malkani et al. was mistakenly included in the Special Issue. It should have appeared in the November/December 2004 issue of *Learning & Memory*.
